Magnetic system - high strength

Function

Magnetic systems with high adhesive force offers security. In addition to the sensors the magnets ensure a solid fit. Through a centrally located tapped hole (M8) the magnets are easily screwed on

Technical Data

Diameter	63mm
Height	14mm
Tapped hole	M8
Adhesive force	350 N

Application:

The perfect connection between the plants, machinery and the sensors.

Advantage:

- > High quality magnet
- > Simple to attach
